Dr. Alberto Mello e Silva has just presented clinical cases book in Internal Medicine

The launch session of the book "Internal Medicine - Clinical Cases", published by LIDEL, was held on December 15, at the Palácio do Governador Hotel in Lisbon. In an interview with News Farma, Dr. Alberto Mello e Silva, director of the Medical Service of Egas Moniz Hospital / CHLO and coordinator of this work, appreciates the collaboration of all the doctors of the service and stresses that "this is not the work of One person, but one teamwork".

"Unlike classical books, which are organized by chapter or by illness, in this book the same patient has several pathologies, and it is not enough to go to the chapters of the books and look for cirrhosis or any other disease, and then study. This is what we have tried to convey in a pedagogical way and with images", underlines Dr. Alberto Mello e Silva.
